Regulators > Domestic — Commercial — High Pressure
Meters > Diaphragm — Turbine — Ultrasonic
Safety Relief Valves > Spring — Dead Weight
Advanced Metering Infrastructure > Remote or Radio Read

Meters > Rotary Type — Domestic — Commercial
Electronic Instruments > Volume Correctors — Solid State Transmitters

Chart Recorders > Differential Pressure — Pressure — Temperature

Electromagnetic Flow Meters > Wafer — Flanged — Sanitary
Microwave Densitometers > Non-Nuclear Density Measurement

Flow Meters > Variable Area — Purgemeters — Thermal Mass — Pressure Controllers
Coriolls > Meters — Controllers — Sensors — Transmitters

Flow Products > Signal Conditioners — Monitors — Rate Meters — Field Indicators — Batchers — Flow Computers
Industrial Instruments > Counters — Timers — Rate Indicators — Encoders — Sensors
Infillink HMI Software and Operator Interfaces > Touch Screen

Gas and Flame Detection > Controllers — Monitors — Process Monitors — Sensors — Wireless — Loop Accessories

Solenoid Valves > 2-Way — 3-Way — 4-Way — Direct Mount — Group Mounted — Isolation — Manual Reset — Pinch
Proportional Control Valves

Flow Meters > Liquid In-Line Turbine — Liquid Wafer Style Turbine — Flow Monitors

Fluid Handling > Loading/Unloading Arms — Swivel Joints — Sight Flow Indicators — Quick/Dry Disconnect Fittings — Couplers — Hatch Seals — Isolation Rings

Flow Products > Turbine Meters — Totalizers — Monitors

REMANUFACTURED BARTON CHART RECORDERS

Our recorders are like-new, high quality units with a 1 year warranty, at about half the cost of new recorders.

We bring in surplus recorders, which are completely stripped down, sand blasted and powder coated.

We then build the recorders to customer specifications using surplus or new parts.

The recorders are then calibrated, certified and issued a Certificate of Calibration.

Contact us for your chart recorder needs and for current pricing and availability
